

Consulting Package 1

BLOCKCHAIN ASK-ME-ANYTHING

Description

This starter package is ideal for both companies and private individuals looking to get a better understanding of blockchain technology, its capabilities, and applications. It aims to provide guidance in the rapidly changing ecosystem of blockchain applications and token offerings, and to highlight opportunities for your project's trajectory and will be tailored to your specific interests and questions.

This package is ideal for small groups to get qualified guidance and expertise from our specialists on a specific topic of their choice, and can also be used for in-house workshops, extended Q&A's, or as a general blockchain education seminar for larger groups. It's also perfect for companies who want to know if blockchain can improve their existing products and services. Please note this package is informational and does not include an analysis or technical evaluation of your specific project/product.

Goal: To educate parties about enterprise blockchain, including its capabilities, use cases, and hurdles.

The package includes:

- Informational workshop (1,5h) – An open discussion where you can ask questions or get an overview of relevant topics.
- Preparation (1-3h) – We'll make a comprehensive presentation to further elaborate on your topics of interest.
- Discussion workshop + Q&A (1,5h) – We'll present the requested topics and answer any remaining questions.
- 10% Discount on Active Sandbox subscription

Package price excl. VAT:

**290 USD
280 EUR
280 CHF**

Consulting Package 2

USE CASE DEVELOPMENT

Description

This advanced package is ideal if you already have a specific project in mind, or in process, and need help with analysis, feasibility evaluation, and research. This package is for startups and SMEs who already need help developing their project. We'll provide expertise and additional research to answer questions from your team and provide recommendations for your project's technical needs, timeline, and optimizations.

Goal: To help Startups and SMEs develop a better understanding of their project's technical needs and help them optimize the project for success.

The package includes:

- Discovery workshop (2h) – one or two sessions. Provide us with written input, if it already exists or just ask questions about your specific use case and industry.
- Research & Preparation (~8h) – We'll do additional research as needed and provide a comprehensive presentation and recommendations for your project.
- Presentation workshop, Questions & Answers (2-4h) – usually in 2 sessions, separated into a presentation and an extended Q&A opportunity for multiple members of your team.
- 20% Discount on Active Sandbox subscription
- 10% Discount on all other subscriptions in the first 12 months

Package price excl. VAT:

**2900 USD
2760 EUR
2760 CHF**

Consulting Package 3

EXPLORATION + ACTIVE SANDBOX

Description

This package is for companies that want to “explore” blockchain to see how it might benefit their existing offerings, or those that want to explore a specific use case with our guidance. It’s perfect for hands-on-experience with blockchain technology tailored for your company and your specific use case. Get assistance from our experts to understand how the technology works in general and how it can specifically benefit your business through a feasibility evaluation and research related to your use case. We also include an Active Sandbox subscription to use for rapid prototyping and testing. It’s ideal for showcasing, experimenting, and using for internal training.

Goal: To help Startups and SMEs develop a better understanding of their project’s technical needs and help them optimize the project for success.

The package includes:

- Discovery workshop (2h) – one or two sessions. Provide written input, if it already exists or just ask questions on specific topics of interest
- Research & Preparation (up to 2 days) – We’ll write a comprehensive document and outline how your business can benefit from blockchain technology, including suggestions on how to implement a blockchain strategy.
- Active Sandbox Customization: We’ll prepare a fully integrated and working blockchain environment with our out-of-the-box tools (White-label Portal, White-Label App, White-Label Management Tool) and customize it to your specifications.
- Presentation workshop, Q&A(2-4h) – usually in 2 sessions, separated into a presentation and an extended Q&A opportunity for your team.
- Active Sandbox handover and training workshop (2h) – One session to install all necessary tools and gain experience with how to handle them.
- One month of Active Sandbox subscription included, with additional months available for purchase.
- 10% Discount on all subscriptions in the first 12 months

Package price excl. VAT:

5800 USD
5510 EUR
5510 CHF

ADDITIONAL ACTIVE SANDBOX SUBSCRIPTION **Monthly fee excl Vat:**

580 USD
550 EUR
550 CHF

Consulting Package 4

2 DAY WORKSHOP

BLOCKCHAIN FOR YOUR BUSINESS

Description

This two-day workshop, led by CoreLedger CEO Dr. Johannes Schweifer, is designed to give your team a deep dive into enterprise blockchain and how it can benefit your business. The course is tailored to your company, and includes both an overview of the technology, new business models and use cases for your industry, a live demo using our Active Sandbox, and plenty of Q&A time to ensure that workshop attendees leave with all their questions answered.

Goal: Getting a clear picture of your options and competitive advantages with blockchain technology.

This workshop includes:

- 2 days of class: Workshop can take place in-person within Switzerland, or via video call.
- Industry leading expertise: Dr. J. Schweifer, a Crypto Valley veteran, teaches each class.
- A deep dive on blockchain tech: Learn terms and gain a full technical understanding.
- Discussion of industry use cases and business models: We tailor these cases for your company.
- Practical Examples for your company: Discussion based on your requests or industry.
- A live use-case demo: See your cases running in an Active Sandbox.
- Lasting value for your company: Materials are included, and further consulting is available.
